

# Product information

## Meguin Motor Safe

### Description

Multifunctional high performance additive for reducing friction and wear and stabilizing viscosity. It protects engine oil against viscosity loss even under the harshest conditions and protects the engine against wear. Motor Safe is based on the latest additive technology and is compatible with all synthetic and mineral engine oils. For all gasoline and diesel engines in new and used cars.

### Properties

- excellent viscosity/temperature properties
- stabilizes loss of viscosity
- friction and wear reducing
- miscible with all commercially available motor oils

### Characteristic data

Base	friction modifier, polymer compound
Density at 20 °C	531 mPas
Color / appearance	brownish
Viscosity at 20 °C	2213 mPas
Flash point	120 °C
Pour point	-25 °C
Form	liquid
Odor	characteristic
Viscosity at 40 °C	180,93 mm <sup>2</sup> /s

### Application

One 250ml can of Motor Safe is sufficient for max. 6 litres engine oil. After adding to the engine oil, allow the engine to run warm. The product can be added at any time.

### Available pack sizes

250 ml Can sheet metal	6558 GB-D-F-RUS-ARAB
